**Firearm Discharge Review Board:
Addition of Commanding Officer of the Training Division as an Advisory
Member of the Firearm Discharge Review Board
(Amends portions of DGO 3.10)**

Officer Involved Shootings (OIS) are low frequency, high risk events that dramatically impact the involved members and the Department.

As established in Department General Order 3.10, *Firearm Discharge Review Board*, the criminal and investigative findings of OIS investigations are presented for executive review to the Firearm Discharge Review Board. DGO 3.10, Section I.C.1, identifies the composition of the FDRB, specifying specific attendees as non-voting Advisory board members.

Because every OIS presents an opportunity to evaluate and learn, the Commanding Officer of the Training Division shall be added to the members comprising the FDRB as an advisory member.

GREGORY P. SUHR
Chief of Police
